

POLYCHEM FOXBOND PRODUCTS

Acid wash for pipe coaters

Product Description:

An aqueous formulation which combines the very best in surfactant and detergent builder technology with acids

Polychem Foxbond

Offered in two formulations:

The Polychem Foxbond 1099 (Which contains solvent)

Or the Polychem Foxbond Zero (No solvents)

Both are designed to remove surface rust, chloride and oil contamination in order to provide a clean surface to coat.

Properties:

Composition	: Aqueous blend
Form	: Clear
Odor	: Mild acid
Use Concentration	: 4-10% by volume

Applied to the surface at low pressure and rinsed with water at high pressure for best results.
